A hand-drawn sketch of a wave, labeled 'u'. The wave consists of two cycles. The first cycle starts at a peak, goes down to a trough, and back up to a peak. The second cycle starts at a peak, goes down to a trough, and back up to a peak. The wave is drawn with a dark green line.

A handwritten lowercase letter 'w' in green ink. The letter is formed with a single continuous stroke, starting from the bottom left, curving up to the right, then down to the left, and finally up to the right to complete the letter. The ink is a vibrant green color.

A hand-drawn orange scribble, possibly representing a stylized letter or a decorative mark.

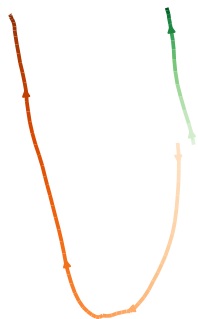

A hand-drawn green wavy line, possibly representing a signal or a stylized letter 'W'. It starts at the top left, goes down to a minimum, then up to a local maximum, then down to another minimum, and finally up to a peak before ending.

A hand-drawn green wavy line with arrows indicating a path. The line starts at the top left, curves down and to the right, then loops back up and to the left, and finally curves down and to the right again. Arrows are placed along the line to show the direction of the path.

A hand-drawn graph on a white background. The graph consists of a continuous orange line that starts at a high point on the left, descends to a local minimum, then rises to a sharp peak. It then descends to a local minimum and rises again to a second, higher peak. A segment of the curve, starting from the second local minimum and extending to the right edge of the graph, is highlighted in green. This green segment shows a slight upward trend.
